About Cogitar Software

Cogitar Software provides software solutions for businesses of all sizes. Our client portfolio ranges from small family business to major corporations.

The company was created in 2003 by people who have worked in Web and Software development for many years; our experience tells us that many companies in the industry do not cater for the small business.

Our aim is simple: to supply a high quality solution at a low cost, and that solution is iDirres.

About iDirres

iDirres represents a new way forward, offering many benefits for businesses of all types in all industries.

Our expert development team is constantly enhancing iDirres, using an open and consultative approach to discussing software needs with our customer base. What's more, those enhancements are included in the price of iDirres, so you receive them at no extra cost!

Because you subscribe to iDirres on a monthly basis you can help your business's cash flow, there'll be no large outlays for software, and more to the point you only have to give 28 days' notice to stop using iDirres.

Cogitar Software's professional approach

Cogitar Software are proud to be members and supporters of a number of organisations:
