About

More about Cogitar Software and who we are.

Benefits

Find out about the benefits iDirres can bring to your business.

Pricing

With iDirres you get a lot for very little investment - our pricing page sets out the charges for iDirres and any optional extras.

Questions

If you have any questions, do take a look at this page.

iDirres overview

There are a number of great features with iDirres; find out more on our iDirres overview page.

Contacts and CRM

See how your business can work with its customers to achieve more together.

Stock Control

Stock control is an important procedure for any business and iDirres is a highly cost-effective method of controlling it.

Multi-locational use

iDirres is the solution that allows you to make the most of your remote workers.

Sales management

With iDirres the sales process goes further because it is fully integrated with the inclusive stock-control system; to find out more, click below.

Linked diaries

With iDirres you do not have to use expensive servers or other software in order to achieve a combined business diary.

Selling online

Increase your business presence without advertising and make sales online even when you're not there.

Support solution

With our complete system you can easily control and organise your support and knowledge management.

Bulk e-mail solution

If you need to send marketing and communication e-mails, but don't want the cost of a middle-man, then you will be pleased to know that iDirres can help you.

Free upgrades

Your monthly subscription to iDirres keeps your system up-to-date whilst keeping your hard-earned capital in your business.

Resellers

Become a reseller and find out why others have gone before you. You could earn up to 20% for three years... not a bad deal.

Free upgrades and updates!

Other benefits come with monthly subscription besides that of keeping capital in your business.

With iDirres you get upgrades (new features) and updates included in the cost. That means that we are constantly working hard to expand the number of features to which you have access, and the upgrades mean that you have the confidence that we are always taking advantage of new ways of working as technology improves.

Key benefits to your business:

- No cost for upgrades and updates*
- No need to worry about having out-of-date software
- The product is always offering you more
- You can suggest features for inclusion... we listen to our users!

*We always try to balance the needs of the majority of our users against the needs of the few. Some upgrades therefore might only allow you to use them a limited number of times per year without additional charge (such as the questionnaire system); please see our pricing page for further details.
