Resellers

Become a reseller and find out why others have gone before you. You could earn up to 20% for three years... not a bad deal.

Page : Questions and Answers

Location link : <http://idirres.net/Questions.aspx>

How much does iDirres cost?

A working copy of iDirres with 5 user licenses, complete with functioning shopping cart and numerous other features, costs £68.00 (ex VAT) per month. Which works out at just under 45p a day per user!

How long do I have to commit to you?

That's the great thing... you subscribe to iDirres month by month, and you only have to give 28 days' notice if you wish to stop using iDirres.

How do I pay for iDirres?

We ask that the first month's payment is made either through our shopping cart, or by cheque, then subsequent payments are collected through a reputable Direct Debit collection company.

I know nothing about barcode scanners; can you help?

Cogitar Software has found a company who can provide the best barcode scanners for your needs. We recommend this specific brand (DataLogic) as we have developed and tested the solution against it.

If you would like to know more please, contact Cogitar Software and we will be more than happy to provide contact details.

May I use my existing bar code scanner?

A number of different USB scanners have been tested with iDirres and we are pleased to say that all of them were successful. However, for reasons of optimum software compatibility we recommend the DataLogic 80 as our approved solution.

Will we need to rebuild our website to use your shopping cart?

Our Shopping cart application is simple and ease to integrate into your existing website. All your developer has to do is "frame" through to the shopping cart and iDirres does all the rest. To you customers it appears as if it's your business.

Can I change the graphics on the shopping cart?

Yes, you can; please contact us for more information.

Where can I find help?

iDirres has a comprehensive help file system. All you need to do is log into the customer area and you can easily find the information you require.

Should you have a problem for which you cannot find a solution, you may log a support call through the customer portal (details in your iDirres set-up pack).

If you have purchased the telephone support option, please use the number provided to you.

Do you provide staff training?

Yes we do provide training: Please contact us for further details.

We also welcome enquires from training companies who would like to become training providers.

How flexible is iDirres?

iDirres contains numerous options to help improve business organisation, efficiency and capabilities. We have designed iDirres to allow for its use in many diverse industries, yet still we are able to offer a unified response to your needs.

Any other questions?

We're here to help, so please contact us if you'd like to know more.
